Have Your Medications Mailed to You

We're here to help you stay on track with mail order.

Save money. Get a 100-day supply by mail for the same price as a 30-day supply from the pharmacy for most generics. Do you take a brand-name drug? No problem! Save money on some brand-name drugs, too.

Here are some examples of how much you can save with mail order:

Medication	Mail Order	Retail	Savings
	100-day supply		
atorvastatin (generic Lipitor)	\$4	\$12	\$8
Jardiance	\$90	\$135	\$45

Actual copayments vary by drug and by plan. See your plan benefits and formulary, or contact us for details.

Convenient. Get your prescriptions from a Honolulu pharmacy delivered in about two business days.

Safe and secure. Your medication will be mailed in a plain, unmarked package to ensure your privacy and with a cold pack if temperature control is required.

Quality service. A pharmacist will check your order before it's mailed to ensure its quality and include information on how to take it safely.

Save even more time and have peace of mind! When you sign up for mail order, ask for **automatic refills**. Your 100-day supply will be automatically mailed to you. Never worry about running out of medication or stopping at the pharmacy again.

Ask your pharmacist about other available assistance:

- Synching your prescriptions so you can get them at the same time each quarter.
- Larger print on prescription bottles.
- Talking vials.
- Braille prescription labels.
- Easy-open caps.
