## About this Guide to Benefits

### Your HMO Program

The Trust Fund has contracted with us to administer a health benefits plan as described in this Guide to Benefits.\* The type of health coverage provided by the Plan is called a **Health Maintenance Organization**. If you enroll in our **Health Maintenance Organization**, you will have medical benefits for treatment of an illness or injury, prevention of illness and injury, and promotion of good health. The Health Plan Hawaii Member Handbook provides further information about this Plan including Member's Rights and Responsibilities, Well-Being Services and preventive health services. In the event the Handbook differs from this Guide to Benefits, the Guide takes precedence. You can get a copy of the Handbook by calling your nearest Customer Service office listed on the back cover of this Guide or visit our web site at [www.hmsa.com](http://www.hmsa.com).

HMSA's Pharmacy and Therapeutics Advisory Committee, composed of practicing physicians and pharmacists from the community, meet quarterly to assess drugs, including new drugs, for inclusion in HMSA's plans. Drugs that meet the Committee's standards for safety, efficacy, ease of use, and value are included in various plan formularies. For more details on coverage under this plan, see *Chapter 4: Description of Benefits* and *Chapter 6: Services Not Covered*.

### \*EUTF Administrative Rules

**Please refer to the Hawaii Employer-Union Health Benefits Trust Fund Administrative Rules for complete information on your Plan. In the case of a discrepancy between this Guide to Benefits and the information contained in the Administrative Rules, the Administrative Rules shall take precedence to the extent allowed by law. The Administrative Rules can be found at [eutf.hawaii.gov](http://eutf.hawaii.gov) in the bottom left corner under "Administrative Rules and Statutes".**

### Terminology

The terms You and Your mean you and your family members enrolled in this plan and eligible for this coverage. We, Us, and Our refer to HMSA. **Trust Fund** means the Hawaii Employer Union Health Benefits Trust Fund (EUTF).

The term **Health Plan Hawaii (HPH)** means the HMSA plan that provides or arranges for benefits specified in this Guide to Benefits.

# Chapter 1: Important Information

The term **Provider** means a physician or other practitioner recognized by us who provides you with health care services. Your provider may also be the place where you get services, such as a hospital or extended care facility. Also, your provider may be a supplier of health care products, such as a home or durable medical equipment supplier.

The term **Health Center** means a specified group of providers in the Health Plan Hawaii network that you designate as your primary center of care. Your designated health center is made up of your PCP and other providers.

The term **Network** means all providers represented in all health centers that have contracted with HMSA to care for Health Plan Hawaii members.

The term **Primary Care Provider (PCP)** means the provider you choose within your health center to act as your personal health care manager.

## Definitions

Throughout this Guide, terms appear in ***Bold Italics*** the first time they are defined. Terms are also defined in *Chapter 11: Glossary*.

## Questions

If you have any questions, please call us. More details about Plan benefits will be provided free of charge. We list our phone numbers on the back cover of this Guide.

---

## Accessing Care

### Your Member Card

You must present your member card whenever you get services. It identifies you as a Health Plan Hawaii member. If you misplace or lose your card, call Customer Service so that a new card can be sent to you. Our phone numbers are listed on the back cover of this Guide.

### Your PCP

Benefits are available only for care you receive from or arranged by your PCP except for care for emergency services, annual vision exams, Online Care, breast pumps, covered immunizations, mental health and substance abuse services, and clinics located at pharmacies in Hawaii and approved by HMSA. To find a clinic near you go to [www.hmsa.com](http://www.hmsa.com). For more details on these services see *Chapter 4: Description of Benefits*.

You do not need a referral from your PCP to obtain access to obstetrical or gynecological care from a health care professional in your health center who specializes in obstetrics or gynecology. You may receive an annual gynecological exam from any Health Plan Hawaii participating gynecologist or nurse midwife without a referral.

---

## Health Center and PCP

### Health Center

Your health center is the group of providers from which all of your services are received. Your health center may be an actual clinic of providers or a group of providers who practice at various locations. Your health center is very important for two reasons:

- Your PCP works within your designated health center; and
- If your condition requires the skills of a specialist, your PCP will arrange for you to get care from a specialty provider within the health center.

### PCP

Your PCP will act as your health manager. He or she will do all of the following:

- Advise you on personal health issues.
- Diagnose and treat medical problems.
- Coordinate and monitor any care you may require from appropriate specialists.
- Keep your medical records up-to-date.

Your PCP is the first point of contact whenever you require medical assistance. Maintaining an ongoing relationship with your PCP will help ensure that you are receiving optimal care.

Please check with your PCP for specific information about the requirements for receiving services at your health center.

## Your Health Team

### Choosing Your Health Team

Your health care team is made up of you and both of the following:

- Your designated health center
- Your designated PCP

To address individual health care needs, you and each covered dependent may choose his or her own PCP and health center within the Health Plan Hawaii Network.

When choosing a PCP and health center, you should consider the following information:

- Do you already have a Provider that you want to remain with? Read through the ***Health Plan Hawaii Directory of Health Centers and Providers*** to determine whether your current Provider is available as a PCP.
- Decide what type of Primary Care Provider specialty fits your needs (family practice, general practice, OB/GYN, internal medicine or pediatrics). For example, you may designate a pediatrician as the Primary Care Provider for your child.
- Select a health center that fits your needs (health centers are in different locations and may offer different providers and specialties).
- Consider your personal preferences (a male or female Provider, cultural issues and languages spoken).
- Call the Provider's office for more details (what are the office hours, what hospital can the Provider practice at, what is their experience with certain diseases).
- You may select any Primary Care Provider within the Health Plan Hawaii Network (the PCP you choose must be in your selected health center or you will be reassigned to the health center where your PCP works).

The Directory of Health Centers and Providers lists the names of each health center and the PCPs and other providers that belong to that health center. Copies of the directory are available by contacting Customer Service. Our phone numbers are listed on the back cover of this Guide.

Certain hospitals may leave HMSA's network of Providers but will remain available to you as if they were network Providers through the current term of your employer's agreement with HMSA. During this time you will continue to pay network hospital copayments and enjoy other in-network benefits even if the hospital leaves the network as to some or all HMSA plans. Network benefits will be available to you through the most current term of your employer's agreement with HMSA but no longer than 12 months from the time the hospital leaves the network.

**Please note:** To provide you with the best care possible, the total number of patients a PCP can care for is limited. If the PCP you select cannot accept new patients without adversely affecting the availability or quality of services provided, you will need to select someone else.

### Changing Your Health Team

Your Primary Care Provider is responsible for providing and arranging all your medical care. Having a continuous relationship with your Primary Care Provider allows you the best possible care. If you need to change your Primary Care Provider, please call your nearest Customer Service office listed on the back cover of this Guide or visit our website at [www.hmsa.com](http://www.hmsa.com), or write Customer Service at:

Customer Service Department  
Health Plan Hawaii  
P.O. Box 860  
Honolulu, Hawaii 96808-0860

If the request is received between the 1<sup>st</sup> and the 5<sup>th</sup> of the month, you may choose either the first of the current month or the 1<sup>st</sup> of the following month as the effective date. If the requested change is between the 6<sup>th</sup> – 31<sup>st</sup>, the earliest effective date is the first of the following month. You will get a new member card indicating the name of your new Primary Care Provider.

HMSA will review your request to change to a different health center on a case-by-case basis. We may postpone your request if:

# Chapter 1: Important Information

- You are an inpatient in a hospital, an extended care facility or other medical institution at the time of your request;
- The change could have an adverse affect on the quality of your healthcare;
- You are an organ transplant candidate; or
- You have an unstable, acute medical condition for which you are receiving active medical care.

## When We Must Assign a New PCP

If your Primary Care Provider's agreement with HMSA ends, we will notify you of the need to select a new Primary Care Provider from your health center. If you do not make a selection, you will be assigned a new Primary Care Provider. Your access to care will not be interrupted during the transition period.

---

## Referrals

### The Referral Process

When your PCP determines that your condition requires the services of a specialist or facility, he or she will refer you to an appropriate specialty physician or facility.

The referral process is as follows:

- First, your PCP will look for a physician or facility within your designated health center to treat you.
- If a specialty physician or facility is not available within your health center, your PCP will refer you to a physician or facility within the Health Plan Hawaii network of providers.
- If a specialty physician or facility is not available within your Health Plan Hawaii network of providers, your PCP will refer you to an HMSA participating physician or facility.

When you go to a specialty physician's office or a facility, you should do both of the following:

- Present your member card.
- Inform the physician or nurse that you have been referred by your PCP.

In rare circumstances, your PCP may need to refer you to a nonparticipating or out-of-state physician or facility. This should happen only when:

- a nonparticipating or out-of-state facility required to treat your condition is not available within the Health Plan Hawaii network or HMSA participating providers, or
- you are diagnosed with a condition or disease requiring specialty care, and a specialist within the Health Plan Hawaii network or HMSA participating providers who can provide the health care services for your condition or disease is either not available or access to these providers require unreasonable travel or delay.

Your PCP must submit an administrative review request to HMSA for authorization prior to services being rendered by a nonparticipating or out-of-state physician or facility. If authorization is received and approved prior to you getting services, HMSA will make payment using the nonparticipating or out-of-state provider's actual charge as the eligible charge and you will be responsible for the copayment/ coinsurance amount(s). If authorization is not received prior to receiving these services, you are responsible for the cost of the medical services.

HMSA will respond to this request within a reasonable time appropriate to the medical circumstances of your case but not later than 15 days after receipt of the request. We may extend the time once for 15 days if we cannot respond to the request within the initial 15 days and it is due to circumstances beyond our control. If this happens, we will let your PCP know before the end of the initial 15 days why we are extending the time and the date we expect to render our decision. If we need more details, we will let your PCP know and provide him or her with at least 45 days to provide the information.

### Authorization of Services

Benefits are available only for care you receive from or arranged by your PCP except for care for emergency services, annual vision exams, Online Care, breast pumps, covered immunizations, mental health and substance abuse services, and clinics located at pharmacies in Hawaii and approved by HMSA. To find a clinic near you go to [www.hmsa.com](http://www.hmsa.com). For more details on these services see *Chapter 4: Description of Benefits*.

## Chapter 1: Important Information

You do not need prior authorization from us or from your PCP to obtain access to obstetrical or gynecological care from a health care professional in your health center who specializes in obstetrics or gynecology. Prior authorization may be required for certain services. For a list of participating health care professionals in your health center who specialize in obstetrics or gynecology, contact Customer Service. Our phone numbers are listed on the back cover of this Guide.

You may receive an annual gynecological exam from any Health Plan Hawaii participating gynecologist or nurse midwife without prior authorization from us or from your PCP.

If your PCP does not provide or arrange for your services, you are responsible for the cost of the medical services.

If the provider you are referred to asks you to return for more services, benefits are only available if both of the following are true:

- The provider you are referred to contacts your PCP; and
- Your PCP arranges for more services (that may include the submission of an administrative review to HMSA).

### Referral Limitations

Benefits for referred care are limited to those covered services described in this Guide to Benefits. Should your provider recommend or perform services that are not covered or do not meet payment determination criteria, you are responsible for all charges related to the service. See the section *Questions We Ask When You Receive Care* later in this chapter.

### Claim Filing and Copayments

Specialty physicians and facilities who provide care when you are referred by your PCP will forward all claims to us. We reserve the right to send benefit payments to you, to a provider, or if you have other coverage besides this Plan, to the other carrier. You are responsible for your copayment. For a summary of your copayments, see *Chapter 3: Summary of Benefits and Your Payment Obligations*.

### Referrals to Another Island

If your PCP refers you to a specialist on another island you may be eligible for inter-island transportation. For more details, see the section *Miscellaneous Medical Treatments* in *Chapter 4: Description of Benefits*.

## Care While You are Away from Home

### Medical Care Outside of Hawaii (BlueCard® Program)

We have a variety of relationships with other Blue Cross and/or Blue Shield Plans and their Licensed Controlled Affiliates (“Licensees”). Generally, these relationships are called “Inter-Plan Arrangements.” These Inter-Plan Arrangements work based on rules and procedures issued by the Blue Cross Blue Shield Association (“Association”). Whenever you obtain healthcare services outside of Hawaii, the claims for those services may be processed through one of these Inter-Plan Arrangements.

When you receive Medical Care Outside of Hawaii, you will receive it from healthcare providers that have a contractual agreement (i.e., are “participating providers”) with the local Blue Cross and/or Blue Shield Licensee in that other geographic area (“Host Blue”). Some providers (“nonparticipating providers”) don’t contract with the Host Blue. Our payment practices in both instances are described below.

We cover only limited medical services received outside your plan service area. As used in this section, “Medical Care Outside of Hawaii” includes emergency care and urgent care only (and specifically not follow-up care, routine care, and elective care) obtained outside the geographic area we serve. Any other services will not be covered as Medical Care Outside of Hawaii when processed through any Inter-Plan Arrangements, unless authorized by your PCP. This is described in more detail below.

- *For emergency and urgent care services outside of Hawaii*, benefits are available through the BlueCard program. You should follow these steps:
  - Carry your current member card for easy reference and access to service.
  - If you experience a Medical Emergency while traveling outside Hawaii, go to the nearest Emergency facility.

## Chapter 1: Important Information

- For urgent care, to find names and addresses of nearby providers, visit the BlueCard Doctor and Hospital Finder Web site ([www.BCBS.com](http://www.BCBS.com)) or call BlueCard Access at 1-800-810-BLUE (2583). Call the provider to schedule an appointment.

When you arrive at the participating BlueCard provider, present your member card. You are responsible for paying the provider copayments for covered services. The provider will submit a claim for the services rendered.

Contact your PCP as soon as possible after receiving services so that he or she can update your file and assist/approve any added care you might require.

- For non-emergency and non-urgent care services outside of Hawaii, you must contact your PCP to make appropriate arrangements for your care.
- Your PCP must submit an administrative review request to HMSA for an authorization prior to services being rendered. If authorization is not received prior to you receiving these services, you are responsible for the cost of the medical services.

### Inter-Plan Arrangements Eligibility – Claim Types

All claim types are eligible to be processed through Inter-Plan Arrangements, as described above, except for all dental benefits (except when paid as medical benefits), and those prescription drug benefits or vision benefits that may be administered by a third party contracted by us to provide the specific service or services.

### BlueCard® Participating Providers

Under the BlueCard® Program, when you receive Medical Care Outside of Hawaii within the geographic area served by a Host Blue, we will remain responsible for doing what we agreed to in the contract. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating providers.

The BlueCard Program enables you to obtain Medical Care Outside of Hawaii, as defined above, from a healthcare provider participating with a Host Blue, where available. The participating provider will automatically file a claim for Medical Care Outside of Hawaii provided to you, so there are no claim forms for you to fill out. You will be responsible for the copayment amount, as stated in *Chapter 1: Important Information*; *Chapter 3: Summary of Benefits and Your Payment Obligations*, and *Chapter 4: Description of Benefits*.

### Emergency Care Services

If you experience a Medical Emergency while traveling outside of Hawaii, go to the nearest Emergency or Urgent Care facility.

Whenever you receive Medical Care Outside of Hawaii and the claim is processed through the BlueCard Program, the amount you pay for Medical Care Outside of Hawaii, if not a flat dollar copayment, is calculated based on the lower of:

- The billed covered charges for your covered services; or
- The negotiated price that the Host Blue makes available to HMSA.

Often, this “negotiated price” will be a simple discount that reflects an actual price that the Host Blue pays to your healthcare provider. Sometimes, it is an estimated price that takes into account special arrangements with your healthcare provider or provider group that may include types of settlements, incentive payments, and/or other credits or charges. Occasionally, it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing, also take into account adjustments to correct for over – or underestimation of past pricing of claims, as noted above. However, such adjustments will not affect the price HMSA uses for your claim because they will not be applied after a claim has already been paid.

Federal or state laws or regulations may require a surcharge, tax or other fee that applies to insured/self-funded accounts. If applicable, we will include any such surcharge, tax or other fee as part of the claim charge passed on to you.

## Chapter 1: Important Information

### Nonparticipating Medical Providers Outside Hawaii

When Medical Care Outside of Hawaii is provided by nonparticipating providers, the amount you pay for such services will normally be based on either the Host Blue's nonparticipating provider local payment or the pricing arrangements required by applicable state law. In these situations, you may be responsible for the difference between the amount that the nonparticipating provider bills and the payment we will make for the covered medical services as set forth in this paragraph. Federal or state law, as applicable, will govern payments for out-of-network emergency services, air ambulance, and certain non-emergent services provided by nonparticipating providers in participating facilities.

#### Exceptions

In certain situations, we may use other payment methods, such as billed covered charges we would make if the medical services had been obtained within our service area, or a special negotiated payment, to determine the amount we will pay for services provided by nonparticipating providers. In these situations, you may be liable for the difference between the amount that the nonparticipating provider bills and the payment we make for covered medical services as set forth in the Guide to Benefits.

Benefit payments for covered emergency services provided by nonparticipating providers are a "reasonable amount" as defined by federal law.

### Blue Cross Blue Shield Global Core

If you are outside the United States, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands (hereinafter "BlueCard service area"), you may be able to take advantage of Blue Cross Blue Shield Global Core when accessing covered medical services. Blue Cross Blue Shield Global Core is unlike the BlueCard Program available in the BlueCard service area in certain ways. For instance, although Blue Cross Blue Shield Global Core assists you with accessing a network of inpatient, outpatient and professional providers, the network is not served by a Host Blue. As such, when you receive care from providers outside the BlueCard service area, you will typically have to pay the providers and submit the claims yourself to obtain reimbursement for these services. If you need medical assistance services (including locating a doctor or hospital) outside the BlueCard service area, you should call the Blue Cross Blue Shield Global Core Service Center at 1-800-810-BLUE (1-800-810-2583) or call collect at 1-804-673-1177, 24 hours a day, seven days a week. An assistance coordinator, working with a medical professional, can arrange a physician appointment or hospitalization, if necessary.

#### Inpatient Services

In most cases, if you contact the Blue Cross Blue Shield Global Core Service Center for assistance, hospitals will not require you to pay for covered inpatient services, except for your copayment amounts. In such cases, the hospital will submit your claims to the service center to begin claims processing. However, if you paid in full at the time of service, you must submit a claim to receive reimbursement for covered medical services.

#### Outpatient Services

Physicians, urgent care centers and other outpatient providers located outside the BlueCard Service area will typically require you to pay in full at the time of service. You must submit a claim to obtain reimbursement for covered medical services.

### Submitting a Blue Cross Blue Shield Global Core Claim

When you pay for covered medical services outside the BlueCard service area, you must submit a claim to obtain reimbursement. For institutional and professional claims, you should complete a Blue Cross Blue Shield Global Core claim form and send the claim form with the provider's itemized bill(s) to the service center (the address is on the form) to initiate claims processing. Following the instructions on the claim form will help ensure timely processing of your claim. The claim form is available from HMSA, the service center or online at [www.bcbsglobalcore.com](http://www.bcbsglobalcore.com). If you need assistance with your claim submission, you should call the service center at 1-800-810-BLUE (1-800-810-2583) or call collect at 1-804-673-1177, 24 hours a day, seven days a week.

# Chapter 1: Important Information

<b>Care on Neighbor Islands</b>	<i>For trips to the Neighbor Islands</i> , urgent care benefits are available by contacting the Customer Service office on the island you are visiting. Our phone numbers are listed on the back cover of this Guide. A customer service representative will arrange your appointment and advise you of your copayment responsibility. Benefits include one visit to a provider's office. Contact your PCP as soon as possible after receiving services so that he or she can update your file and provide or arrange any added care you might require.
<b>Guest Membership Program</b>	<p>If you will be living away from your plan service area for longer than 90 days, benefits are available through the Guest Membership program within the U.S. You will need to prearrange care in the new service area through us. We will advise you of the HMO host plans that are available to you.</p> <ul style="list-style-type: none"><li>• For members who are away from home, Guest Membership privileges are available for up to 180 days. If your absence from Hawaii exceeds 180 days, you may renew your Guest Membership privileges for up to an additional six months.</li><li>• For dependents who are away from home, Guest Membership privileges must be renewed annually.</li></ul>
<b>Process for Establishing Guest Membership</b>	<p><b>How to Enroll in the Guest Membership Program.</b> To enroll in the Guest Membership Program, call the HPH Away from Home Care Coordinator before you leave your plan service area. For a list of phone numbers by island, see the back cover of this Guide. The coordinator will research if a HMO host plan is available in the area you will be visiting.</p> <ul style="list-style-type: none"><li>• If a provider is available, you will need to fill out an enrollment form. Enrollment information can be taken by phone or through the mail.</li><li>• Once the enrollment is completed, the HPH coordinator will forward the enrollment form to the Away from Home Care Coordinator in the service area you will be visiting.</li><li>• Once the HMO host plan processes your enrollment form, you will become a guest member of the HMO host plan while you are living in their service area. As a guest member, you are eligible for those benefits offered by the HMO host plan and must abide by the provisions of that plan. Your HPH plan benefits will not apply until you return to your HPH service area.</li><li>• When you arrive at your destination, call the Away from Home Care Coordinator of the HMO host plan. The coordinator will provide you with a list of Providers (from which you can select a PCP) and a description of the host plan's benefits.</li></ul>

## Questions We Ask When You Receive Care

<b>Is the Care Covered?</b>	To get benefits, the care you get must be a covered treatment, service, or supply. See <i>Chapter 4: Description of Benefits</i> for a listing of covered treatments, services and supplies.
<b>Does the Care Meet Payment Determination Criteria?</b>	<p>All care you get must meet all of the following Payment Determination Criteria:</p> <ul style="list-style-type: none"><li>• For the purpose of treating a medical condition.</li><li>• The most appropriate delivery or level of service, considering potential benefits and harms to the patient.</li><li>• Known to be effective in improving health outcomes; provided that:<ul style="list-style-type: none"><li>– Effectiveness is determined first by scientific evidence;</li><li>– If no scientific evidence exists, then by professional standards of care; and</li><li>– If no professional standards of care exists or if they exist but are outdated or contradictory, then by expert opinion; and</li></ul></li><li>• Cost-effective for the medical condition being treated compared to alternative health interventions, including no intervention. For purposes of this paragraph, cost-effective shall not necessarily mean the lowest price.</li></ul> <p>Services that are not known to be effective in improving health outcomes include, but are not limited to, services that are experimental or investigational.</p> <p>Definitions of terms and more details on the application of this Payment Determination Criteria are contained in the Patient's Bill of Rights and Responsibilities, Hawaii Revised Statutes § 432E-1.4. The current language of this statutory provision will be provided upon request. Requests should be submitted to HMSA's Customer Service Department.</p>

## Chapter 1: Important Information

The fact that a physician may prescribe, order, recommend, or approve a service or supply does not in itself mean that the service or supply meets Payment Determination Criteria, even if it is listed as a covered service.

Except for BlueCard participating and BlueCard PPO providers, participating providers may not bill or collect charges for services or supplies that do not meet HMSA's Payment Determination Criteria unless a written acknowledgement of financial responsibility, specific to the service, is obtained from you or your legal representative prior to the time services are rendered.

Participating providers may, however, bill you for services or supplies that are excluded from coverage without getting a written acknowledgement of financial responsibility from you or your representative. See *Chapter 6: Services Not Covered*.

More than one procedure, service, or supply may be appropriate to diagnose and treat your condition. In that case, we reserve the right to approve only the least costly treatment, service, or supply.

You may ask your physician to contact us to decide if the services you need meet our Payment Determination Criteria or are excluded from coverage before you get the care.

### **Is the Care Consistent with HMSA's Medical Policies?**

To be covered, the care you get must be consistent with the provider's scope of practice, state licensure requirements, and HMSA's medical policies. These are policies drafted by HMSA Medical Directors, many of whom are practicing physicians, with community physicians and nationally recognized authorities. Each policy provides detailed coverage criteria for when a specific service, drug, or supply meets payment determination criteria. If you have questions about the policies or would like a copy of a policy related to your care, please call us at one of the phone numbers on the back cover of this Guide.

### **Did You Receive Care from Your PCP?**

Benefits are available only for care you receive from or arranged by your PCP except for care for emergency services, annual vision exams, Online Care, breast pumps, covered immunizations, mental health and substance abuse services, and clinics located at pharmacies in Hawaii and approved by HMSA. To find a clinic near you go to [www.hmsa.com](http://www.hmsa.com). For more details on these services see *Chapter 4: Description of Benefits*.

You do not need a referral from your PCP to obtain access to obstetrical or gynecological care from a health care professional in your health center who specializes in obstetrics or gynecology. You may receive an annual gynecological exam from any Health Plan Hawaii participating gynecologist or nurse midwife without a referral.

### **Is the Service or Supply Subject to a Benefit Maximum?**

**Benefit Maximum** is the maximum benefit amount allowed for a covered service or supply. A coverage maximum may limit the duration or the number of visits. For details about benefit maximums, read *Chapter 2: Payment Information* and *Chapter 4: Description of Benefits*.

### **Is the Service or Supply Subject to Precertification?**

Certain services require our prior approval. For services subject to approval, read *Chapter 5: Precertification*.

### **Did You Receive Care from a Provider Recognized by Us?**

To determine if a provider is recognized, we look at many factors including licensure, professional history, and type of practice. All HPH network providers and some non-network providers are recognized. To find out if your provider is a network provider, refer to your Directory of Health Centers and Providers. If you need a copy, call us and we will send one to you or visit [www.hmsa.com](http://www.hmsa.com). To find out if a non-network provider is recognized, call us at one of the phone numbers on the back cover of this Guide.

### **Did a Recognized Provider Order the Care?**

All covered treatment, services, and supplies must be ordered by a recognized provider practicing within the scope of his or her license.

# Chapter 1: Important Information

What You Can do to Maintain Good Health	
Practice Good Health Habits	Staying healthy is the best way to control your health care costs. Take care of yourself all year long. See your provider early. Don't let a minor health problem become a major one. Take advantage of your preventive care benefits.
Routine and Preventive Services	Detecting conditions early is important. That's why HMSA is committed to providing you with benefits for routine and preventive health services. Many serious disorders can be prevented by healthier lifestyles, immunizations, and early detection and treatment. Routine and preventive care should always be performed by your PCP. PCP means the provider you choose within your health center to act as your personal health care manager.
Be a Wise Consumer	<p>You should make informed decisions about your health care. Be an active partner in your care. Talk with your provider and ask questions. Understand the treatment program and any risks, benefits, and options related to it.</p> <p>Take time to read and understand your <i>Report to Member</i>. This report shows how we applied benefits. Review your report and let us know if there are any inaccuracies.</p> <p>You may get copies of your Report to Member online through My Account on <a href="https://hmsa.com">hmsa.com</a> or by mail upon request.</p>

Our Rights to Interpret this Document	<p>We will interpret the provisions of the Plan and will determine questions that arise under it. We have the administrative discretion:</p> <ul style="list-style-type: none"><li>• To determine the amount and type of benefits payable to you or your dependents according to the terms of this Guide.</li><li>• To interpret the provisions of this Guide as needed to determine benefits, including decisions on medical necessity.</li></ul> <p>Our determinations and interpretations, and our decisions on these matters are subject to review by the Trust Fund. If you do not agree with our interpretation or determination, you may appeal to the Trust Fund after you have exhausted our appeal procedures. ### Eligible Charge

#### Definition

For most medical services, except for emergency and air ambulance services provided by nonparticipating providers, and certain services provided by nonparticipating providers in participating facilities, the **Eligible Charge** is the lower of either the provider's *actual* charge or the amount we establish as the *maximum allowable fee*. HMSA's payment, and your copayment, are based on the eligible charge. **Exception:** For services from participating facilities, HMSA's payment is based on the maximum allowable fee and your copayment is based on the lower of the actual charge or the *maximum allowable fee*.

The base amount on which your copayment is calculated for emergency and air ambulance services from nonparticipating providers, as well as certain non-emergent services provided by nonparticipating providers in participating facilities, is calculated in accord with federal law.

**Exception:** For nonparticipating services included in the No Surprises Act of 2021 you will not have to pay the difference between the actual charge and the *maximum allowable fee*, but your cost-share may be different based on the requirements of the law. Please check HMSA.com for details.

**Please note:** If you get a noncovered service, you are responsible for the entire amount charged by your provider.

### Copayment

#### Definition

A **copayment** applies to most covered services. It is either a fixed percentage of the eligible charge or a fixed dollar amount. **Exception:** For services provided at a participating facility, your copayment is based on the lower of the facility's actual charge or the *maximum allowable fee*. You owe a copayment even if the facility's actual charge is less than the *maximum allowable fee*.

Except as otherwise stated in this Guide:

- When you get multiple services from the same provider on the same day, you owe one fixed dollar copayment if fixed dollar copayments are applicable to the services you get. However, if the eligible charge for the service or supply you receive is less than the fixed dollar copayment amount listed in chapter 3, your actual copayment is the eligible charge and you may owe more than one copayment. The total copayment amount will not exceed the fixed dollar copayment amount listed in chapter 3 for the service or supply you receive.
- You owe all copayments that are a percentage of eligible charge if eligible charge percentage copayments are applicable to the services you get.

## Chapter 2: Payment Information

- If you get some services with fixed dollar copayments and some with copayments that are a percentage of eligible charge, you owe one fixed dollar copayment and all copayments based on a percentage of eligible charge. For services with fixed dollar copayments, if the eligible charge for such services is less than the fixed dollar copayment amount listed in chapter 3, your actual copayment is the eligible charge and you may owe more than one copayment. However, your copayment amount will not exceed the fixed dollar copayment amount listed in chapter 3 for the service or supply you receive.

If you get services from more than one provider on the same day, more than one copayment may apply.

**Amount** See *Chapter 3: Summary of Benefits and Your Payment Obligations*.

Annual Copayment Maximum	
Definition	The <b>Annual Copayment Maximum</b> is the maximum copayment amounts you pay in a calendar year. Once you meet the copayment maximum you are no longer responsible for copayment amounts unless otherwise noted.
Amount	\$1,500 per person or \$3,000 (maximum) per family
When You Pay More	The following amounts do not apply toward meeting the copayment maximum. You are responsible for these amounts even after you have met the copayment maximum. <ul style="list-style-type: none"><li>• Payments for services subject to a maximum once you reach the maximum. See <i>Benefit Maximum</i> later in this chapter.</li><li>• Payments for noncovered services.</li><li>• Any amounts you owe in addition to your copayment for covered services.</li></ul>

Maximum Allowable Fee	
Definition	<p>The <b>Maximum Allowable Fee</b> is the maximum dollar amount HMSA will pay for a covered service, supply, or treatment.</p> <p>These are examples of some of the methods we use to determine the Maximum Allowable Fee:</p> <ul style="list-style-type: none"><li>• For most services, supplies, or procedures, we consider:<ul style="list-style-type: none"><li>– Increases in the cost of medical and non-medical services in Hawaii over the last year.</li><li>– The relative difficulty of the service compared to other services.</li><li>– Changes in technology.</li><li>– Payment for the service under federal, state, and other private insurance programs.</li></ul></li><li>• For <i>some facility-billed services</i>, we use a per case, per treatment, or per day fee (per diem) rather than an itemized amount (fee for service). This does not include practitioner-billed facility services. For non-network hospitals, our maximum allowable fee for all-inclusive daily rates established by the hospital will never exceed more than if the hospital had charged separately for services.</li><li>• For <i>services billed by BlueCard PPO and participating providers outside of Hawaii</i>, we use the lower of the provider's actual charge or the negotiated price passed on to us by the on-site Blue Cross and/or Blue Shield Plan. For more details on HMSA's payment practices under the BlueCard Program, see <i>Care While You are Away from Home</i> in <i>Chapter 1: Important Information</i>.</li></ul>

Benefit Maximum	
Definition	A <b>Benefit Maximum</b> is a limit that applies to a specified covered service or supply. A service or supply may be limited by duration or number of visits. The maximum may apply per service or calendar year.

About this Chapter

Your health care coverage provides benefits for procedures, services or supplies that are listed in this chapter. You will note that some of the benefits have limitations. These limitations describe criteria, circumstances or conditions that are necessary for a procedure, service or supply to be a covered benefit. These limitations may also describe circumstances or conditions when a procedure, service or supply is not a covered benefit. These limitations and benefits should be read with *Chapter 6: Services Not Covered*, in order to identify all items excluded from coverage.

As may be required by law, including without limitation in response to State and/or Federal emergency declarations, this plan may provide expanded benefits and coverage policies not described in this Guide. Up-to-date information related to such circumstances, including emergency declarations, will be posted on our website at [www.hmsa.com](http://www.hmsa.com).

Additional Coverage Mandated by Law

Definition .....	45
------------------	----

### Definition

**Precertification** is a special approval process to make sure that certain medical treatments, procedures, or devices meet payment determination criteria before the service is rendered. HMSA requires pre-certification of various services before the services are given. Your physician is aware of the guidelines to follow and will submit the information and papers that are needed for consideration. When pre-certification is authorized, you should receive services at your selected health center unless the services are referred.

### Services and Supplies Which Require Precertification

A few common examples of things you must obtain precertification for:

- **Lab, X-ray and Other Diagnostic Tests** such as:
  - genetic testing,
  - polysomnography and sleep studies,
  - computed tomography (CT), and
  - functional MRI.
- **Surgeries** such as:
  - organ and tissue transplants and
  - varicose veins treatment.
- **Treatment Therapies** such as:
  - applied behavior analysis,
  - physical, occupational and speech therapies,
  - chiropractic services,
  - in vitro fertilization,
  - growth hormone therapy,
  - home IV therapy,
  - drugs such as:
    - oral chemotherapy agents,
    - infusibles and injectables,
    - new drug to market (specialty medical drugs), and
    - off-label drug use.
- **Durable Medical Equipment and Orthotics and Prosthetic Devices** such as:
  - wheelchairs and
  - positive airway pressure and oral devices to treat obstructive sleep apnea.

The list of services that need prior approval may change periodically. To ensure your treatment or procedure is covered, call us at (808) 948-6464 for Oahu and (800) 344-6122 for Neighbor islands or visit our website at [www.hmsa.com/precert](http://www.hmsa.com/precert).

## Chapter 5: Precertification

### **Our Response to Your Non-Urgent Precertification Request**

If your request for precertification is not urgent, HMSA will respond to your request within a reasonable time that is appropriate to the medical circumstances of your case. We will respond within 15 days after we get your request. We may extend the time once for 15 days if we cannot respond to your request within the first 15 days and if it is due to circumstances beyond our control. If this happens, we will let you know before the end of the first 15 days. We will tell you why we are extending the time and the date we expect to have our decision. If we need more details from you or your provider, we will let you or your provider know and give you at least 45 days to provide it.

### **Our Response to Your Urgent Precertification Request**

Your precertification request is urgent if the time periods that apply to a non-urgent request:

- Could seriously risk your life or health or your ability to regain maximum function, or
- In the opinion of your treating physician, would subject you to severe pain that cannot be adequately managed without the care that is the subject of the request for precertification.

HMSA will respond to your urgent precertification request as soon as possible given the medical circumstances of your case. It will be no later than 72 hours after all information sufficient to make a determination is provided to us.

If you do not provide enough details for us to determine if or to what extent the care you request is covered, we will notify you within 24 hours after we get your request. We will let you know what details we need to respond to your request and give you a reasonable time to respond. You will have at least 48 hours to provide it.

### **Appeal of Our Precertification Decision**

If you do not agree with our precertification decision, you may appeal it. See *Chapter 8: Dispute Resolution*.

### About this Chapter

Your health care coverage does not provide benefits for certain procedures, services or supplies that are listed in this chapter or limited by this chapter or Chapter 4. We divided this chapter with category headings. These category headings will help you find what you are looking for. Actual exclusions are listed across from category headings.

**Please note:** Even if a service or supply is not specifically listed as an exclusion in this chapter, there are more exclusions as described by the limitations in Chapter 4. If that service or supply is not specifically listed as an exclusion in this chapter or as a limitation exclusion in Chapter 4, it will not be covered unless:

- it is described in *Chapter 4: Description of Benefits*, and meets all of the criteria, circumstances or conditions described, and
- it meets all of the criteria described in *Chapter 1: Important Information* under *Questions We Ask When You Receive Care*.

If a service or supply does not meet the criteria described in Chapter 4, then it should be considered an exclusion or service that is not covered. This chapter should be read in conjunction with Chapter 4 in order to identify all items that are excluded from coverage.

If you are unsure if a specific procedure, service or supply is covered or not covered, please call Customer Service, and we will help you. We list our phone numbers on the back cover of this Guide.

- Subject you to severe pain that cannot be adequately managed without the care or treatment that is the subject of the appeal.

You may request expedited external review of our initial decision if you have requested an expedited internal appeal and the adverse benefit determination involves a medical condition for which the completion of an expedited internal appeal would meet the requirements above. ## Chapter 8: Dispute Resolution

### Who Can Request an Appeal

Either you or your authorized representative may ask for an appeal. Authorized representatives include:

- Any person you authorize to act on your behalf as long as you follow our procedures. This includes filing a form with us. To get a form to authorize a person to act on your behalf, call us at (808) 948-5090, or toll free at 1-800-462-2085. (Requests for appeal from an authorized representative who is a physician or practitioner must be in writing unless you are asking for an expedited appeal.)
- A court appointed guardian or an agent under a health care proxy.
- A person authorized by law to provide substituted consent for you or to make health care decisions on your behalf.
- A family member or your treating health care professional if you are unable to provide consent.

### What Your Request Must Include

To be recognized as an appeal, your request must include all of this information:

- The date of your request.
- Your name and phone number (so we may contact you).
- The date of the service we denied or date of the contested action or decision. For precertification for a service or supply, it is the date of our denial of coverage for the service or supply.
- The subscriber number from your member card.
- The provider name.
- A description of facts related to your request and why you believe our action or decision was in error.
- Any other details about your appeal. This may include written comments, documents, and records you would like us to review.

You should keep a copy of the request for your records. It will not be returned to you.

### Information Available From Us

If your appeal relates to a claim for benefits or request for precertification, we will provide upon your request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to your claim as defined by the Employee Retirement Income Security Act.

If our appeal decision denies your request or any part of it, we will provide an explanation, including the specific reason for denial, reference to the health plan terms on which our decision is based, a statement of your external review rights, and other information on our denial.

---

### If You Disagree with Our Appeal Decision

If you would like to appeal HMSA's decision, you must do one of the following:

- If you are appealing an issue of medical necessity, appropriateness, health care setting, level of care, or effectiveness; or a determination by HMSA that the service or treatment is experimental or investigational, you must request review by an Independent Review Organization (IRO) selected by the Insurance Commissioner.
- For all other issues, you must:
  - Request arbitration before a mutually selected arbitrator; or
  - File a lawsuit against HMSA under 29 USC 1132(a) unless your plan is one of the two bulleted types below in which case you must select arbitration:
    - A church plan as defined in 29 USC 2002(33) and no selection has been made in accord with 26 USC 410(d), or
    - A government plan as defined in 29 USC 1002(32).

### Request Review by Independent Review Organization (IRO) Selected by the Insurance Commissioner

If you choose review by an IRO, you must submit your request to the Insurance Commissioner within 130 days of HMSA's decision on appeal to deny or limit the service or supply.

Unless you qualify for expedited external review of our appeal decision, before requesting review, you must have exhausted HMSA's internal appeals process or show that HMSA violated federal rules related to claims and appeals unless the violation was 1) de minimis; 2) non-prejudicial; 3) attributable to good cause or matters beyond HMSA's control; 4) in the context of an ongoing good-faith exchange of information; and 5) not reflective of a pattern or practice of non-compliance.

## Chapter 8: Dispute Resolution

Your request must be in writing and include:

- A copy of HMSA's final internal appeal decision.
- A completed and signed authorization form releasing your medical records relevant to the subject of the IRO review. Copies of the authorization form are available from HMSA by calling (808) 948-5090, or toll free at 1-800-462-2085 or on [HMSA.com](https://www.hmsa.com).
- A complete and signed conflict of interest form. Copies of the conflict of interest form are available from HMSA by calling (808) 948-5090, or toll free at 1-800-462-2085 or on [HMSA.com](https://www.hmsa.com).
- A check for \$15.00 made out to the Insurance Commissioner. It will be refunded to you if the IRO overturns HMSA's decision. You are not required to pay more than \$60.00 in any calendar year.

You must send the request to the Insurance Commissioner at:

Hawaii Insurance Division  
ATTN: Health Insurance Branch – External Appeals  
335 Merchant Street, Room 213  
Honolulu, HI 96813  
Phone: (808) 586-2804

You will be informed by the Insurance Commissioner within 14 business days if your request is eligible for external review by an IRO.

You may submit more information to the IRO. It must be received by the IRO within 5 business days of your receipt of notice that your request is eligible. Information received after that date will be considered at the discretion of the IRO.

The IRO will issue a decision within 45 calendar days of the IRO's receipt of your request for review.

The IRO decision is final and binding except to the extent HMSA or you have other remedies available under applicable federal or state law.

### **Expedited IRO Review**

You may request expedited IRO review if:

- You have requested an expedited internal appeal at the same time and the timeframe for completion of an expedited internal appeal would seriously jeopardize your life, health, or ability to gain maximum functioning or would subject you to severe pain that cannot be adequately managed without the care or treatment that is the subject of the adverse determination;
- The timeframe for completion of a standard external review would seriously jeopardize your life, health, or ability to gain maximum functioning, or would subject you to severe pain that cannot be adequately managed without the care or treatment that is the subject of the adverse determination; or
- If the final adverse determination concerns an admission, availability of care, continued stay, or health care service for which you received emergency services; provided you have not been discharged from a facility for health care services related to the emergency services.

Expedited IRO review is not available if the treatment or supply has been provided.

The IRO will issue a decision as expeditiously as your condition requires but in no event more than 72 hours after the IRO's receipt of your request for review.

### **External Review of Decisions Regarding Experimental or Investigational Services**

You may request IRO review of an HMSA determination that the supply or service is experimental or investigational.

Your request may be oral if your treating physician certifies, in writing, that the treatment or supply would be significantly less effective if not promptly started.

Written requests for review must include, and oral requests must be promptly followed up with, the same documents described above for standard IRO review plus a certification from your physician that:

- Standard health care services or treatments have not been effective in improving your condition;
- Standard health care services or treatments are not medically appropriate for you; or

## Chapter 8: Dispute Resolution

- There is no available standard health care service or treatment covered by your plan that is more beneficial than the health care service or treatment that is the subject of the adverse action.

Your treating physician must certify in writing that the service recommended is likely to be more beneficial to you, in the physician's opinion, than any available standard health care service or treatment, or your licensed, board certified or board eligible physician must certify in writing that scientifically valid studies using accepted protocols demonstrate the service that is the subject of the external review is likely to be more beneficial to you than any available standard health care services or treatment.

The IRO will issue a decision as expeditiously as your condition requires but in no event more than 7 calendar days of the IRO's receipt of your request for review.

### Request Arbitration

If you choose arbitration, you must submit a written request for arbitration to HMSA, Legal Services, P.O. Box 860, Honolulu, Hawaii 96808-0860. Your request for arbitration will not affect your rights to any other benefits under this plan. You must have fully complied with HMSA's appeals procedures described above and we must get your request for arbitration within one year of the decision rendered on appeal. In arbitration, one person (the arbitrator) reviews the positions of both parties and makes the final decision to resolve the issue. No other parties may be joined in the arbitration. The arbitration is binding and the parties waive their right to a court trial and jury.

Before arbitration starts, both parties (you and we) must agree on the person to be the arbitrator. If we both cannot agree within 30 days of your request for arbitration, either party may ask the First Circuit Court of the State of Hawaii to appoint an arbitrator.

The arbitration hearing shall be in Hawaii. The rules of the arbitration shall be those of the Dispute Prevention and Resolution, Inc. to the extent not inconsistent with this *Chapter 8: Dispute Resolution*. The arbitration shall be conducted in accord with the Federal Arbitration Act, 9 U.S.C. §1 et seq., and such other arbitration rules as both parties agree upon.

The arbitrator will make a decision as quickly as possible and will give both parties a copy of this decision. The decision of the arbitrator is final and binding. No further appeal or court action can be taken except as provided under the Federal Arbitration Act.

HMSA will pay the arbitrator's fee. You must pay your attorney's or witness's fees, if you have any, and we must pay ours. The arbitrator will decide who will pay all other costs of the arbitration.

HMSA waives any right to assert that you have failed to exhaust administrative remedies because you did not select arbitration.

## Chapter 9: Coordination of Benefits and Third Party Liability

# CHAPTER 9

### This Chapter Covers

What Coordination of Benefits Means .....	61
General Coordination Rules .....	62
Dependent Children Coordination Rules.....	62
If You Are Hospitalized When Coverage Begins.....	62
Motor Vehicle Insurance Rules .....	62
Medicare Coordination Rules.....	63
Third Party Liability Rules .....	64

### What Coordination of Benefits Means

#### Coverage that Provides Same or Similar Coverage

You may have other benefit coverage that provides benefits that are the same or similar to this Plan.

When this plan is primary, its benefits are determined before those of any other plan and without considering any other plan's benefits. When this plan is secondary, its benefits are determined after those of another plan and may be reduced when the combination of the primary plan's payment and this plan's payment exceed the Eligible Charge. As the secondary plan, this plan's payment will not exceed the amount this plan would have paid if it had been your only coverage. Also, when this plan is secondary, benefits will be paid only for those services or supplies covered under this plan.

If there is a benefit maximum under this plan, the service or supply for which payment is made by either the primary or the secondary plan shall count toward that benefit maximum. For example, this plan covers one well woman exam per calendar year, if this plan is secondary and your primary plan covers one well woman exam per calendar year, the exam covered under the primary plan will count toward the yearly benefit maximum and this plan will not provide benefits for a second exam within the calendar year. However, the first twenty days of confinement to an extended care facility that are paid in full by Medicare shall not count toward the benefit maximum.

#### What You Should Do

When you get services, you need to let us know if you have other coverage.

Other coverage includes:

- Group insurance.
- Other group benefit plans.
- Nongroup insurance.
- Medicare or other governmental benefits.
- The medical benefits coverage in your automobile insurance (whether issued on a fault or no fault basis).

You should also let us know if your other coverage ends or changes.

If we need more details regarding your other coverage, we will contact you in writing. Your benefit payment may be delayed or denied if you do not provide the information we need to coordinate your benefits.

To help us coordinate your benefits, you should:

- Inform your provider by giving him or her information about the other coverage at the time services are rendered, and
- Indicate that you have other coverage when you fill out a claim form by completing the appropriate boxes on the form.

## Chapter 9: Coordination of Benefits and Third Party Liability

### What We Will Do

Once we have the details about your other coverage, we will coordinate benefits for you. There are certain rules we follow to help us determine which plan pays first when there is other insurance or coverage that provides the same or similar benefits as this Plan.

---

#### General Coordination Rules

This section lists four common coordination rules. The complete text of our coordination of benefits rules is available on request.

##### No Coordination Rules

The coverage without coordination of benefits rules pays first.

##### Member Coverage

The coverage you have as an employee pays before the coverage you have as a spouse, domestic partner, or dependent child.

##### Active Employee Coverage

The coverage you have as the result of your active employment pays before coverage you hold as a retiree or under which you are not actively employed.

##### Earliest Effective Date

When none of the general coordination rules apply (including those not described above), the coverage with the earliest continuous effective date pays first.

---

#### Dependent Children Coordination Rules

##### Birthday Rule

For a child who is covered by both parents who are not separated or divorced and have joint custody, the coverage of the parent whose birthday occurs first in a calendar year pays first.

##### Court Decree Stipulates

For a child who is covered by separated or divorced parents and a court decree says which parent has health insurance responsibility, that parent's coverage pays first.

##### Court Decree Does Not Stipulate

For a child who is covered by separated or divorced parents and a court decree does not stipulate which parent has health insurance responsibility, then the coverage of the parent with custody pays first. The payment order for this dependent child is as follows:

- Custodial parent.
- Spouse of custodial parent.
- Non-custodial parent.
- Spouse of non-custodial parent.

##### Earliest Effective Date

If none of these rules apply, the parent's coverage with the earliest continuous effective date pays first.

---

#### If You Are Hospitalized When Coverage Begins

##### If You are Hospitalized on the Effective Date of Coverage

If you are an inpatient on the effective date of this coverage and you had other insurance or coverage that was not with us immediately prior to the effective date, we will work with your prior insurer or coverage to decide if our coverage will supplement the prior insurance or coverage. Please call us if this applies to you so that we can coordinate with your prior insurer or coverage. If you had coverage with us immediately prior to the effective date of this coverage, or if you had no other insurance or coverage immediately prior to the effective date, then our coverage terms for services related to the hospitalization will apply.

---

#### Motor Vehicle Insurance Rules

##### Automobile Coverage

If your injuries or illness are due to a motor vehicle accident or other event for which we believe motor vehicle insurance coverage reasonably appears available under Hawaii Revised Statutes Chapter 431, Article 10C, then that motor vehicle coverage will pay before this coverage. You are responsible for any cost sharing payments required under such motor vehicle insurance coverage. We do not cover such cost sharing payments. Before we pay benefits under this coverage for an injury covered by motor vehicle insurance, you must give us a list of medical expenses paid by the motor vehicle insurance. The list must show the

## Chapter 9: Coordination of Benefits and Third Party Liability

date expenses were incurred, the provider of service, and the amount paid by the motor vehicle insurance. We will review the list of expenses to verify that the motor vehicle insurance coverage available under Hawaii Revised Statutes Chapter 431, Article 10C is exhausted. After it is verified, you are eligible for covered services in accord with this Guide to Benefits.

Please note that you are also subject to the Third Party Liability Rules at the end of this chapter if:

- your injury or illness is caused or alleged to have been caused by someone else and you have or may have a right to recover damages or receive payment in connection with the illness or injury, or
- you have or may have a right to recover damages or receive payment without regard to fault (other than personal injury protection coverage available under Hawaii Revised Statutes Chapter 431, Article 10C-103.5).

Any benefits paid by us in accord with this section or the *Third Party Liability Rules*, are subject to the provisions described later in this chapter under *Third Party Liability Rules*.

---

### Medicare Coordination Rules

#### Medicare as Secondary Payer

Since 1980, Congress has passed legislation making Medicare the secondary payer and group health plans the primary payer in a variety of situations. These laws apply only if you have both Medicare and employer group health coverage. For more information, contact your employer or the Centers for Medicare & Medicaid Services.

#### If You are Age 65 or Older

If you are age 65 or older and eligible for Medicare only because of your age, the coverage described in this Plan will be provided before Medicare benefits as long as your employer or group health plan coverage is based on your status as a current active employee or the status of your spouse as a current active employee.

#### If You are Under Age 65 with Disability

If you are under age 65 and eligible for Medicare only because of a disability (and not ESRD), coverage under this Plan will be provided before Medicare benefits as long as your group health plan coverage is based on your status as a current active employee or the status of your spouse as a current active employee or on the current active employment status of an individual for whom you are a dependent.

#### If You are Under Age 65 with End-Stage Renal Disease (ESRD)

If you are under age 65 and eligible for Medicare only because of ESRD (permanent kidney failure), coverage under this Plan will be provided before Medicare benefits, but only during the first 30 months of your ESRD coverage. Then, the coverage described in this Plan will be reduced by the amount that Medicare pays for the same covered services.

#### Dual Medicare Eligibility

If you are eligible for Medicare because of ESRD and a disability, or because of ESRD and you are age 65 or older, the coverage under this Plan will be provided before Medicare benefits during the first 30 months of your ESRD Medicare coverage if this Plan was primary to Medicare when you became eligible for ESRD benefits.

#### This Plan Secondary Payer to Medicare

If you receive services covered under both Medicare and this Plan, and Medicare is allowed by law to be the primary payer, this plan will cover over and above what Medicare pays up to the Medicare approved charge not to exceed the amount this plan would have paid if it had been your only coverage. If you are entitled to Medicare benefits, we will begin paying benefits after all Medicare benefits (including lifetime reserve days) are exhausted.

If you get inpatient services and have coverage under Medicare Part B only or have exhausted your Medicare Part A benefits, we will pay inpatient benefits based on our eligible charge less any payments made by Medicare for Part B benefits (i.e., for inpatient lab, diagnostic and x-ray services).

Benefits will be paid after we apply any deductible you may have under this plan.

## Chapter 9: Coordination of Benefits and Third Party Liability

### Facilities or Providers Not Eligible or Entitled to Medicare Payment

When you get services at a facility or by a provider that is not eligible or entitled to reimbursement from Medicare, and Medicare is allowed by law to be the primary payer, we will limit payment to an amount that supplements the benefits that would have been payable by Medicare had the facility or provider been eligible or entitled to such payments, regardless of whether or not Medicare benefits are paid.

---

### Third Party Liability Rules

#### If You have Coverage Under Worker's Compensation or Motor Vehicle Insurance

If you have or may have coverage under worker's compensation or motor vehicle insurance for the illness or injury, please note:

- **Worker's Compensation Insurance.** If you have or may have coverage under worker's compensation insurance, such coverage will apply instead of the coverage under this Guide to Benefits. Medical expenses from injuries or illness covered under worker's compensation insurance are excluded from coverage under this Guide to Benefits.
- **Motor Vehicle Insurance.** If you are or may be entitled to medical benefits from your automobile coverage, you must exhaust those benefits first, before receiving benefits from us. Please refer to the section in this Chapter entitled "Motor Vehicle Insurance Rules" for a detailed explanation of the rules that apply to your automobile coverage.

#### What Third Party Liability Means

Third party liability is when you are injured or become ill and:

- The illness or injury is caused or alleged to have been caused by someone else and you have or may have a right to recover damages or get payment in connection with the illness or injury; or
- You have or may have a right to recover damages or get payment without regard to fault.

In such cases, any payment made by us on your behalf in connection with such injury or illness will only be in accord with the following rules.

#### What You Need to Do

Your cooperation is required for us to determine our liability for coverage and to protect our rights to recover our payments. We will provide benefits in connection with the injury or illness in accord with the terms of this Guide to Benefits only if you cooperate with us by doing the following:

- **Give Us Timely Notice.** You must give us timely notice in writing of each of the following:
  - your knowledge of any potential claim against any third party or other source of recovery in connection with the injury or illness;
  - any written claim or demand (including legal proceeding) against any third party or against other source of recovery in connection with the injury or illness; and
  - any recovery of damages (including any settlement, judgment, award, insurance proceeds, or other payment) against any third party or other source of recovery in connection with the injury or illness.
- To give timely notice, your notice must be no later than 30 calendar days after the occurrence of each of the events stated above.
- **Sign Requested Documents.** You must promptly sign and deliver to us all liens, assignments, and other documents we deem necessary to secure our rights to recover payments. You hereby authorize and direct any person or entity making or receiving any payment on account of such injury or illness to pay to us so much of such payment as needed to discharge your reimbursement obligations described above;
- **Provide Us Information.** You must promptly provide us any and all information reasonably related to our investigation of our liability for coverage and our determination of our rights to recover payments. We may ask you to complete an Injury/Illness report form, and provide us medical records and other relevant information;
- **Do Not Release Claims Without Our Consent.** You must not release, extinguish, or otherwise impair our rights to recover our payments, without our express written consent; and
- **Cooperate With Us.** You must cooperate to help protect our rights under these rules. This includes giving notice of our lien as part of any written claim or demand made against any third party or other source of recovery in connection with the illness or injury.

## Chapter 9: Coordination of Benefits and Third Party Liability

Any written notice required by these Rules must be sent to:

HMSA  
Attn: 8 CA/Other Party Liability  
P.O. Box 860  
Honolulu, Hawaii 96808-0860

If you do not cooperate with us as described above, your claims may be delayed or denied. We shall be entitled to reimbursement of payments made on your behalf to the extent that your failure to cooperate has resulted in erroneous payments of benefits or has prejudiced our rights to recover payments.

### **Payment of Benefits Subject to Our Right to Recover Our Payments**

If you have complied with the rules above, we will pay benefits in connection with the injury or illness to the extent that the medical treatment would otherwise be a covered benefit payable under this Guide to Benefits. However, we shall have a right to be reimbursed for any benefits we provide, from any recovery received from or on behalf of any third party or other source of recovery in connection with the injury or illness, including, but not limited to, proceeds from any:

- Settlement, judgment, or award;
- Motor vehicle insurance (other than personal injury protection benefits) including liability insurance or your underinsured or uninsured motorist coverage;
- Workplace liability insurance;
- Property and casualty insurance;
- Medical malpractice coverage; or
- Other insurance.

We shall have a first lien on such recovery proceeds, up to the amount of total benefits we pay or have paid related to the injury or illness. You must reimburse us for any benefits paid out of the corresponding amount of special damages recovered by you, or on your behalf by your legal representative, heirs, or attorney, even if the recovery proceeds obtained by insurance or settlement:

- Do not expressly include medical expenses;
- Are stated to be for general damages only;
- Are for less than the actual loss or alleged loss suffered by you due to the injury or illness;
- Are obtained on your behalf by any person or entity, including your estate, legal representative, parent, or attorney;
- Are without any admission of liability, fault, or causation by the third party or payor.

If a settlement or insurance recovery is stated to be for general damages only, we must prove that it duplicates our medical expenses paid in order to exercise our right to reimbursement. Our lien will be reduced by a reasonable sum for the attorney's fees and costs incurred by you in bringing a civil action or claim for your injuries.

Our lien will attach to and follow such recovery proceeds even if you distribute or allow the proceeds to be distributed to another person or entity. Our lien may be filed with the court, any third party or other source of recovery money, or any entity or person receiving payment regarding the illness or injury.

If a court or arbitrator determines that we are entitled to reimbursement of payments made on your behalf under HRS § 663-10 and these rules, and we do not promptly receive full reimbursement, we shall have a right to set-off from any future payments payable on your behalf under this Guide to Benefits.

For any payment made by us under these rules, you are still responsible for your copayments, deductibles, timeliness in submission of claims, and other obligations under this Guide to Benefits.

Nothing in these Third Party Liability Rules shall limit our ability to coordinate benefits as described in this Chapter.

## CHAPTER 10

### This Chapter Covers

When Coverage Ends .....	67
Continuity of Care .....	67
Continued Coverage .....	68
Confidential Information .....	69
Terms of Coverage .....	69

### When Coverage Ends

#### Notifying Us When Your Child's Eligibility Ends

You must inform the Trust Fund, in writing, if a child no longer meets the eligibility requirements. You must notify the Trust Fund on or before the first day of the month following the month the child no longer meets the requirements. For example, let's say that your child turns 26 on June 1. You would need to notify the Trust Fund by July 1.

If you fail to inform the Trust Fund that your child is no longer eligible, and we make payments for services on his or her behalf, you must reimburse us for the amount we paid.

#### Notifying Us When Other Events Cause Coverage To End

You must inform the Trust Fund, in writing, if other events occur that end coverage, such as divorce or the dissolution of a domestic partnership.

#### Termination for Fraud

Your eligibility for coverage will end if you or the Trust Fund use this coverage fraudulently or intentionally misrepresent or conceal material facts in any claim for benefits.

If we determine that you or the Trust Fund has committed fraud or made an intentional misrepresentation or concealment of material facts, we will provide you written notice 30 days prior to termination of your coverage. During that time, you have a right to appeal our determination of fraud or intentional misrepresentation. For more details on your appeal rights, see *Chapter 8: Dispute Resolution*.

If your coverage is terminated for fraud, intentional misrepresentation, or the concealment of material facts:

- We will not pay for any services or supplies provided after the date the coverage is terminated.
- You agree to reimburse us for any payments we made under this coverage.
- We will retain our full legal rights. This includes the right to initiate a civil action based on fraud, concealment or misrepresentation.

### Continuity of Care

#### Continuing Care Patient

You may be eligible for continuity of care if you are a continuing care patient receiving a course of treatment from a Health Plan Hawaii Network provider and one of the following occurs:

- the contractual relationship between the Health Plan Hawaii Network provider and HMSA is terminated;
- benefits provided under your plan with respect to the Health Plan Hawaii Network provider are terminated because of a change in the terms of the participation of such Health Plan Hawaii Network provider in such plan; or

# Chapter 10: General Provisions

- you are under a group health plan and the contract between such group health plan and HMSA is terminated.

With respect to the above occurrences, the term “terminated” does not include a termination of a contract for failure to meet applicable quality standards or for fraud.

A “Continuing Care Patient” is defined as an individual who, with respect to a provider:

- is undergoing a course of treatment for a serious and complex condition from the provider,
- is undergoing a course of institutional or inpatient care from the provider,
- is scheduled for non-elective surgery from the provider, including receipt of post-operative care from such provider with respect to such a surgery,
- is pregnant and undergoing a course of treatment for the pregnancy from the provider, or
- is or was determined to be terminally ill and is receiving treatment for such illness from such provider.

For purposes of the “Continuing Care Patient” definition, a serious and complex condition means either:

- in the case of an acute illness, a condition that is serious enough to require specialized medical treatment to avoid the reasonable possibility of death or permanent harm; or
- in the case of a chronic illness or condition, a condition that is (i) life-threatening, degenerative, potentially disabling, or congenital and (ii) requires specialized medical care over a prolonged period of time.

If we determine you are eligible for continuity of care, we will inform you of the options under transitional care. If you qualify for transitional care, you may elect to continue your current benefits and copayments under this Plan with respect to the course of treatment furnished by such provider relating to your status as a continuing care patient. Plan benefits will apply, beginning on the date HMSA’s notice of termination is provided and ending 90 days later or when you are no longer eligible as a continuing care patient, whichever is sooner.

## No Surprises Act Emergency Services and Surprise Bills

Under the No Surprises Act (“NSA”), a provider or emergency facility may not bill or hold you liable for a payment amount that exceeds the copayment requirement had such service or item been received from a Health Plan Hawaii Network provider unless you signed a valid consent allowed by law.

If coverage is approved and applies, benefits for services rendered subject to the NSA will be paid directly to the non-network provider. Services or items subject to the NSA are:

- Emergency Services rendered by a non-network provider;
- Non-emergency items and services furnished or rendered by a non-network provider at certain participating health care facilities, provided the beneficiary has not validly waived the applicability of the NSA; and
- Air ambulance services covered by the Plan and provided by non-network air ambulance providers.

**Please note:** Copayment amounts will apply toward meeting the annual deductibles and annual copayment maximums.

---

## Continued Coverage

### Other Continuation Coverage

If you are not eligible for COBRA coverage, you may be eligible for one of HMSA's individual payment plans. Please call us for more information.

### Continued Coverage if Subscriber Dies

Upon the death of a subscriber, the subscriber’s spouse or domestic partner enrolled in the plan as an eligible dependent, if not eligible for group coverage, may become a subscriber under an individual payment plan. In the event a subscriber’s spouse or domestic partner becomes a subscriber under an individual payment plan, all dependent children of the deceased may continue to be enrolled as members under such individual payment plan.

# Chapter 10: General Provisions

**Continued Coverage if  
You have Medicare**

When you are no longer eligible for this coverage and are enrolled in Medicare Parts A and B, you may be eligible to enroll in another HMSA plan. If you would like more information, call us at the number listed on the back cover of this Guide.

**Confidential Information**

Your medical records and information about your care are confidential. HMSA does not use or disclose your medical information except as allowed or required by law. You may need to provide information to us about your medical treatment or condition. In accordance with law, we may use or disclose your medical information (including providing this information to third parties) for the purpose of payment activities and health care operations such as:

- quality assurance;
- disease management;
- provider credentialing;
- administering the Plan;
